

IP68 Waterproof Coupler

Built to meet IP68 standards, this coupler offers protection against dust and prolonged water immersion, ensuring a secure and reliable connection in harsh environments.

1. Thread through tail cover

2. Thread through rubber ring

3. Thread through the shell

4. Connecting RJ45 connector

5. Tighten the middle cover first

6. Put the rubber ring into the shell

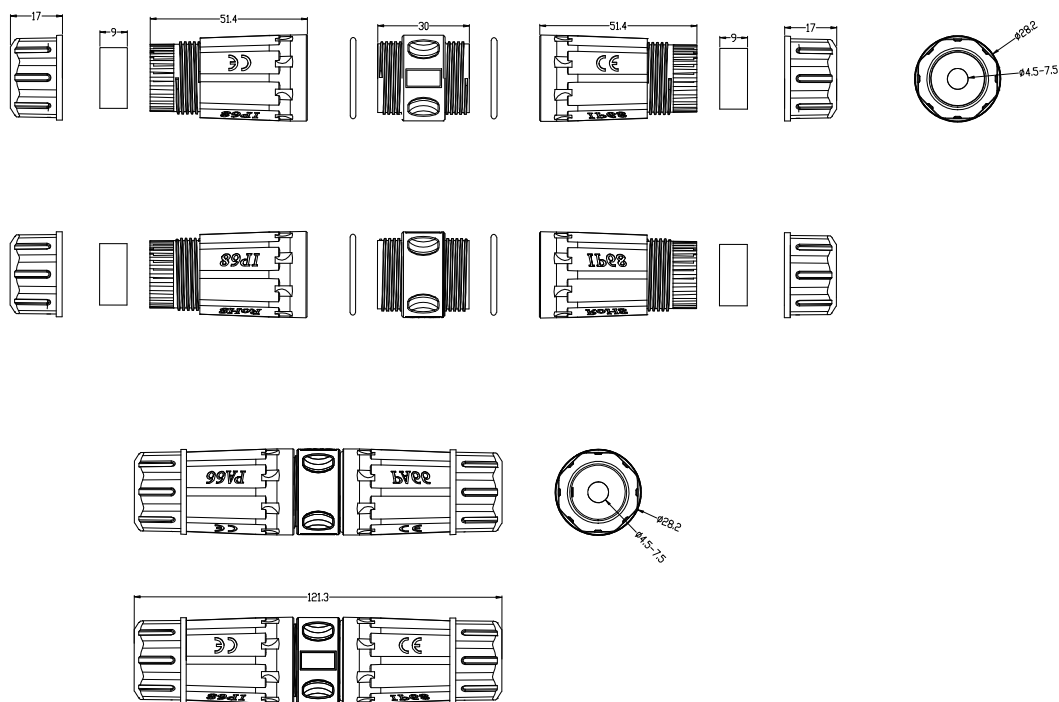

7. Tighten the cap

Gigabit internet speed

Suitable for 2-1000MBPS broadband, high-definition camera POE device transmission rate

100 Meters Lossless Data Transmission

Using pure copper cables, the coupler supports transmission distances up to 100m with no signal loss—ensuring Gigabit speeds at full capacity.

Strong Tensile Strength

Designed to withstand pulling and bending, ensuring durability during installation and use.
